

Staff Senate Biography

Name: Kresenda “Kressy” Raasch

Job title: Library Associate

School or Division: Administration/Library

Tenure at LSUHSC: 19 years

What do you hope the Staff Senate accomplishes and why are you a Senator?

I hope that we can help make LSUHSC a place where people feel safe to come to work (or at least not dread it) and feel like they are an important and valued part of the mission of the University no matter in which department they are employed. I am a senator because I want to ensure my workplace is as enriching and productive as possible since I spend the majority of my day here.

Why do you enjoy working at LSUHSC?

I like working in a team, which the library certainly is. There are so many staff that have worked here for years across the campus. We may not know everyone's name but we are always friendly and engaging with each other. It's hard not to feel like you are part of a community when you are greeted with so many smiles every day.
